

## **Teacher Induction Programs (TIPS)**

Teachers new to the teaching profession must complete a state approved teacher induction program. The Teacher Induction Programs (TIPS) for our district is administered by the Tulare County Office of Education (TCOE). The program is for new teachers in California who have earned either their Preliminary or Professional Clear credential, those trained out of state, or teachers who have received a SB2042 preliminary credential.

Participating teachers have the opportunity to participate in a variety of professional development workshops, observe exemplary teaching practices, and work with consulting teachers to build and refine a foundation of teaching skills.

Completion of the TIPS program is required for credential renewal.
