

TUBERCULOSIS TESTS

PERMANENT EMPLOYEES

Permanent employees must have a current TB test on file at all times. The California Education Code mandates that permanent employees have a tuberculosis screening every four years. If an employee has previously shown a positive skin test, a chest x-ray will be required.

COJUSD will cover the cost of the TB screening for permanent employees of the District providing the test is administered at the District.

SUBSTITUTE/STUDENT EMPLOYEES

Temporary employees must have a current TB test on file at all times. The California Education Code mandates that employees of a school district have a tuberculosis screening every four years. If an employee has previously shown a positive skin test a chest x-ray may be required.

COJUSD will cover the cost of the TB screening for substitute/student employees of the District providing the test is administered at the District.

NEW EMPLOYEES

New employees to the District must provide a current tuberculosis clearance before being hired. It is the responsibility of the new employee to cover the initial cost of the TB test. A TB test from another district is acceptable, provided there was no break in service and the test has not expired.
